DISCUSSION AGENDA

14. Committee and Board minutes – Ray Berry

Secretary Berry shared that in the past, meeting minutes were extensive and often scrutinized by several individuals. He preferred they be brief and to the point. Mr. Santorio further listed how Broward Health enhanced transparency through several methods including transcription services, live streaming of every committee and board meeting, and the recording and archiving of meetings that could be reviewed on the organization’s website. Mr. Santorio further shared that Broward Health’s bylaws are governed by Robert’s Rules of Order who prescribes minutes should be transactional in nature. Chairman Klein agreed that the last minutes that were approved were appropriate. Commissioner Angier requested that transcriptions be kept separate and not necessarily become part of the meeting books. Commissioner Gregoire shared that the strength of the new format is that one could always look back to see what was accomplished and what actions were taken that become policy or procedure.
