Resolution FY20-09

Resolution of the Board of Commissioners of North Broward Hospital District Pertaining to Travel Reimbursements of Commissioners

WHEREAS, Commissioners of the Board of Commissioners (the “Board”) of North Broward Hospital District (the “District”), from time to time, must travel both interstate and intrastate on behalf of the District to conduct District business;

WHEREAS, Commissioners of the District are public officers and, as such, are subject to the requirements of Florida Law and Broward Health’s Policies & Procedures pertaining to reimbursement of travel expenditures;

WHEREAS, the Board desires to establish a uniform policy pertaining to Commissioners incurring travel expenditures to be reimbursed by the District; and

WHEREAS, unless context otherwise requires, capitalized terms used but not defined herein have the meanings ascribed to such terms in the Amended and Restated Bylaws of the North Broward Hospital District, as amended from time to time (the “Bylaws”).

NOW, THEREFORE, BE IT RESOLVED, by the Board, that:

1. All travel by Commissioners on behalf of the District and all reimbursements of travel, lodging, and subsistence expenses (collectively, “Expenses”) shall always be consistent with Florida Law including, but not limited to, § 112.061, Florida Statutes, as amended from time to time or any successor statute thereof, as well as Broward Health’s Policies & Procedures.

2. Any and all reimbursements of Expenses shall only be approved if travel was undertaken in order to conduct bona fide District business, which serves a direct and lawful public purpose with relation to the District by the Commissioner attending such meeting or conducting such business.

3. Any claim for reimbursement of Expenses shall contain a statement that the expenses were actually incurred by the Commissioner as necessary travel expenses in the performance of official duties and shall be verified by a written declaration that it is true and correct as to every material matter.

4. When a Commissioner’s travel will be or is within Broward, Miami-Dade, and Palm Beach Counties (“Tri-County Area”) and travel expenditures are expected to be or is at or below Two Hundred Dollars ($200.00), reimbursement of Expenses may be paid if approved by the President/CEO or his or her designee (“Senior Management”).
5. When a Commissioner’s travel will be outside of the Tri-County Area and/or travel expenditures are expected to be above Two Hundred Dollars ($200.00), reimbursement of Expenses may only be paid if such Commissioner obtains approval by (1) Senior Management and (2) prior approval by the Board of Commissioners.

6. Notwithstanding, if a Commissioner’s travel will be or is outside of the Tri-County Area and/or travel expenditures are expected to be or is above Two Hundred Dollars ($200.00), reimbursement of Expenses may be made in the event of a bona fide emergency preventing prior approval by the Board of Commissioners; provided, however, such Commissioner’s reimbursement of Expenses shall only be paid if ratified by the Board of Commissioners at a subsequent Board meeting.

7. This resolution hereby supersedes, amends, replaces and repeals any conflicting resolution or conflicting policy previously adopted by the Board.

MEMORANDUM

TO: Board of Commissioners

FROM: Gino Santorio, President/CEO BH

DATE: November 20, 2019

SUBJECT: Approval to expand existing contractual agreement with Cerner Corporation, in partnership with American Well, the vendor awarded the formal RFP, to provide telehealth services.

BACKGROUND

Market forces such as consumerism, retail competition, reimbursement model changes, physician burnout, outpatient migration, patient convenience and physician shortages require Broward Health to invest in telehealth. Telehealth is a growing industry within healthcare. Within the last few years Medicare fee-for-service telehealth volumes have grown 39% from 2016-2017; and commercial telehealth claims have grown 261% from 2014-2016 (Advisory Board, 2019). Several of Broward Health’s competitors have established telehealth services being offered to the community. To ensure Broward Health stays competitive in the current market, it is important to establish a white-labeled, all-in-one, telehealth program that will include both direct-to-patient and provider-to-provider virtual services. Telehealth will allow Broward Health to improve clinical outcomes, increase revenue with a modern venue for access to care, and save costs by improving provider efficiency and the provision of a platform for virtual care coordination.

Direct-to-patient services will include twenty-four (24) hours per day seven (7) days per week on-demand services. Additionally, the telehealth platform will permit Broward Health to scale provider to provider consultations and expand internationally.

The Broward Health RFP Committee has recommended starting contract negotiations with American Well for the Telehealth Services. American Well has a partnership with Cerner Corporation and will be contracted through the expansion of the existing Cerner contract. American Well also supports Epic and other EHR platforms.

American Well and Cerner have developed an integrated telehealth solution that allows Cerner Millennium providers to treat patients virtually and directly from Cerner. This will allow providers to leverage the power of telehealth with minimal workflow impact. American Well is the sole preferred and validated telehealth provider that offers this solution with Cerner.

American Well’s mission is to improve healthcare by enabling providers to treat patients anytime, anywhere. They work with more than 150 health systems across the country encompassing more than 2,000 hospitals. American Well will provide a dedicated account team comprised of an account director, project manager, marketing manager, and technical lead that will guide our team with best practices and expertise gleaned from years of experience with existing clients.

American Well has also learned that the success and growth of telehealth programs with their existing clients is directly tied to how well their target population understands the value of easier access to care wherever and whenever they need it. With that, American Well provides the following services as part of the contract:
1. Employee enrollment email campaign: American Well will operate an enrollment email campaign to introduce the program to employees and drive enrollments.

2. Employee engagement email campaign: American Well will operate an engagement email campaign to drive visits and keep new enrollees engaged.

3. Direct mail: American Well will provide a template for a direct mail campaign.

4. Health fair in a box: American Well will provide a sample of a popular Health Fairs in a Box, which can be used at employee events or health system fairs.

5. Branded internet/intranet widget: American Well will create a digital widget to place on Broward Health’s websites to promote the telehealth service and provide easy text-to-download functionality.

6. Custom branded mobile app for patients. Mobile app will be coded for Android and iOS (Apple).

7. Marketing Resource Center access: Exclusive access to creative assets, campaign examples, and other tools for a successful telehealth program.

8. Integration with Google Analytics: American Well will add Google Analytics to the product pages and configure goals and filters and track marketing campaigns.

ACTION/PROJECT DESCRIPTION

Approval for expansion of agreement in partnership with American Well, the vendor awarded the formal request for proposal (RFP), to provide telehealth services.

Services can be provided by Broward Health physicians or through utilizing American Well’s Online Care Group (OCG). The OCG is a multi-disciplinary medical team with strict medical director oversight and governance; all clinicians are credentialed to National Committee for Quality Assurance and Utilization Review Accreditation Commission standards. The OCG includes providers who are board certified in family medicine, internal medicine, emergency medicine, pediatrics, and psychiatry; as well as dieticians registered with the Commission on Dietetic Registration, behavioral health specialists with a master’s-level education that can practice independently, and psychologists who meet the highest standards of licensure for their field of practice. The cost to utilize an OCG provider, based on service, is:

</table>

For example, a patient utilizing an urgent care visit with an OCG provider would be charged $59; with $49 going to the OCG and $10 going to Broward Health.

The proposal also includes the purchase of four standalone private telehealth kiosks. These kiosks can be placed in high traffic areas and provide care at the location. The kiosks include an: otoscope, pulse oximeter, blood pressure cuff, stethoscope, dermascope, and thermometer. Kiosks include a touchscreen interface, integrated camera, credit card reader, handset for private audio, sanitation features, and customizable external kiosk branding. Kiosks can be introduced to any worksite, retail, school system, or community location.

Given the emerging telehealth market, establishing a five year proforma to calculate return on investment is difficult. The conservative projection of 1,200 annual consumer activated visits, with 3% growth each year reduced the 5 year loss to $500,000. However, as we plan for provider efficiency with the use of telehealth and expanded population health initiatives, the $1,955,600 investment will be initially recovered by year five.

**JUSTIFICATION**

Provide capital funding in order to proceed with the expansion of agreement, in partnership with American Well, to implement a white-labeled, all-in-one telehealth platform that will include both direct-to-patient and provider-to-provider services. This will allow Broward Health to improve clinical outcomes and access to care, and save costs by sharing valuable provider resources between facilities and abroad, reducing the cost of care, preventing avoidable admissions, and improving emergency department throughput; as well as ensure Broward Health remains competitive in the current market.

**STAFF RECOMMENDATION**

*Therefore, it is requested that the Board of Commissioners of the North Broward Hospital District authorize the President/CEO to approve the expansion of agreement in partnership with American Well, the vendor awarded per the formal RFP process, to provide telehealth services.*

SUBJECT: Approval for the purchase of one Hologic Genius 3D Mammography System for The Lillian S. Wells Women’s Health Center at Broward Health Medical Center.

BACKGROUND

The Hologic Genius 3D mammographic system offers breakthrough technology for increased clarity and patient comfort, with decreased radiation dose. Hologic has incorporated high definition (HD) technology which improves the image resolution 30%, from the current standard of 70 microns to 100 microns. This improvement allows the radiologist to “see through” overlapping breast tissue and breast implants. Hologic is the only vendor to offer 3D stereotactic biopsy capability, which will allow the radiologist to perform biopsies on very small lesions. Their new SmartCurve compression paddle has been proven to increase patient comfort during the exam in 93% of patients surveyed. With the new HD technology comes the ability to have the two-dimensional (2D) images reformatted from the three-dimensional (3D) images, with diagnostic quality. This eliminates 4 additional radiation exposures to the patient who is having a screening 3D tomographic exam. The Quantra Breast Density software provides tools for the radiologist to measure and monitor volumetric density in the patient’s breast. Breast Density is mandated by the state of Florida to be reported to the patient, since patients with dense breast tissue require more vigilant monitoring to ensure early detection. Finally, Broward Health Medical Center would like to standardize our breast imaging platform with Hologic.

ACTION/PROJECT DESCRIPTION

Approval of this GPO purchase of the Hologic 3Dimensions Mammography System with 3D biopsy capability.

FINANCIAL/BUDGETARY IMPACT

$300,000 of this purchase will be covered by donated funds and the remaining $197,855 will be covered by base capital.

JUSTIFICATION

This GPO purchase will allow North Broward Hospital District to continue to provide state of the art breast imaging and breast biopsy services to the women in our community with accurate measurement tools to report breast density.

STAFF RECOMMENDATION

Therefore, it is requested that the Board of Commissioners of the North Broward Hospital District authorize the President/CEO, to approve the GPO purchase of the Hologic 3Dimensions Mammography System at a cost of $497,855, utilizing $300,000 from donated funds, and $197,855 form Broward Health Medical Center base capital.

SUBJECT: Upgrade of the 3M Health Information Systems Coding, Reimbursement and Clinical Documentation Improvement Software suite.

BACKGROUND

The 3M system has been in use at Broward Health since 2004. All coding and abstracting is performed and contained within the 3M system. The coding includes ICD-10-CM, ICD-10-PCS and CPT to support the billing function. The coding data is used for clinical and business decision making. Health Information Management produces many reports for the hospital stakeholders using the 3M software.

The 3M 360 Encompass system is an upgrade of our legacy database system. After reviewing the industry alternatives, the HIM Managers request approval to renew the existing 3M coding system contract.

ACTION / PROJECT DESCRIPTION

Upgrade current 3M Health Information Systems Coding and Reimbursement software suite to the updated 3M 360 Encompass for CAC (Computer Assisted Coding) with NLP (Natural Language Processing) engine which includes additional Clinical Documentation Improvement technology. Currently 2 sites (BHN and BHIP) do not have CDI technology in place and this request with provide standardization for CDI processes across organization

FINANCIAL / BUDGETARY IMPACT

Operating expenses are expected to be $1,298,537.36 for year one; $1,025,773.44 for year two, $1,142,520.36 for year three, $1,265,191.57 for year four and $1,394,038.08 for year five.
JUSTIFICATION

3M is the clear leader for medical record coding software with over 85% of the market. 3M provides the latest reference materials in an ever-changing regulatory environment.

The 3M 360 Encompass is an upgrade of our current coding legacy database system. This upgrade will facilitate standardization of CDI process across the system. All 4 facilities will now have CDI software and on the same platform as the 3M coding; thus, eliminating the need to maintain a separate CDI platform.

3M 360 Encompass will also improve quality metrics by allowing coder to analyze available patient data will patient is in-house —including electronic health record (EHR) templates and dictated documents—to identify unclear, unspecified or missing diagnoses and gaps in documentation while increasing overall coding productivity.

STAFF RECOMMENDATION

Therefore, it is requested that the Board of Commissioners of the North Broward Hospital District authorize the District to engage and enter into a 5-year Agreement with 3M Health Information Systems to provide 3M 360 Encompass System for coding, reimbursement and Clinical Documentation Improvement Software and to grant this arrangement a Standardization Waiver so as to exempt it from the Formal Bid Process as outlined in the Procurement Code.

SUBJECT: That the Board of Commissioners of the North Broward Hospital District acknowledge the execution of the First Amendment to Service Agreement for Social Work Advantage, Inc., a focus arrangement exceeding the 75th percentile.

BACKGROUND

ACTION/PROJECT DESCRIPTION

This is a Sole Source agreement that approximates the 90th percentile for Referral Source compensation that requires Board approval as stated in current policy GA-004-441. However, Broward Health may enter such agreements without prior Board approval, so long as there are exigent circumstances affective the delivery of patient care as stated in SOP GA-004-441-002 (Page 2, Section H).

DATE: November 20, 2019

SUBJECT: Approve the District to enter into a contract with Revint Solutions to audit inpatient diagnosis-related group (“DRG”) for all facilities as Sole Source.

BACKGROUND

An inpatient’s diagnosis-related group (“DRG”) is used by many payors to determine the reimbursement rate on a patient’s hospital stay. The DRG is assigned based on the clinical documentation available to Inpatient Coding Specialists. Manual review of these DRG assignments is time-consuming. Revint Solutions’ tool provides an automated ongoing audit of the DRG assigned to each admission and provides suggested changes to the DRG. This automated review provides a more efficient means to ensure the most accurate and compliant DRG. Sole Source Validation was prepared October 1, 2019 showing that other products are in the market, however, the Revint Solutions system has a unique set of features supporting Sole Source.

ACTION/PROJECT DESCRIPTION

Approve to enter into a contract with Revint Solutions to audit inpatient diagnosis-related group (“DRG”) for all facilities as Sole Source.

FINANCIAL/BUDGETARY IMPACT

This will be a new service compensated on a contingency basis. Financial impact will be dependent on the outcome of the ongoing DRG audits.

JUSTIFICATION

Auditing each inpatient’s DRG supports compliant billing. Revint Solutions is a validated sole source provider of automated DRG Validation. The automated system will require minimal manual review allowing for more efficient review charts when compared to a fully manual review.

STAFF RECOMMENDATION

Therefore, it is requested that the Board of Commissioners of the North Broward Hospital District deem Revint Solutions as Sole Source and authorize the District, without going through the Formal Bid Process established by the District’s Procurement Code, to enter into a contract with Revint Solutions to audit inpatient diagnosis-related group (“DRG”) for all facilities.
