201 E. Sample Road, Deerfield Beach, Florida 33064

**BROWARD HEALTH NORTH** is a 409-bed hospital located in northern Broward county offering a full continuum of care featuring a comprehensive stroke center, an adult level II trauma center, a neurological institute, a joint replacement center, cardiovascular services, as well as general, vascular, endovascular and neurosurgery. Broward Health North added a \$78 million expansion to create a 53-bed, all private room, 36,000-square-foot emergency department with three dedicated trauma bays, six new operating rooms, and renovations to the hospital's main entrance and outpatient entrances.

## SPECIALTY SERVICES AT A GLANCE

- **Cancer Care**

The comprehensive cancer center offers a vast array of patient care services including cancer diagnosis and treatment, inpatient and outpatient care, chemotherapy/infusion, radiation therapy, pain management, genetic testing, counseling and support groups.

- **Cardiovascular Care**

Providing a comprehensive approach to the prevention, detection, and treatment of cardiac disease, cardiac services include angioplasty, cardiac catheterization, cardiac ultrasound, EKG testing, pacemaker and defibrillator insertions, stress tests, and vascular access services including PICC line, midline, and extended dwell IV placement.

- **Emergency Services/Trauma Center – Level II**

With trauma surgeons available 24 hours a day, the emergency care center features a level II trauma center and specialized chest pain and stroke units specially equipped.

- **Imaging Services**

Home to Broward County's first hospital-based, 128 multi-slice CT scanner, the department of radiology offers state-of-the-art imaging and diagnostic services including MRI, ultrasound, PET CT scans, interventional radiology, nuclear medicine and digital mammography.

- **Rehabilitation Institute**

The Rehabilitation Institute at Broward Health North specializes in recovery after a traumatic injury. Patients receive an individualized treatment program including physical therapy, occupational therapy, speech therapy and psychology as needed to maximize their recovery.

Our 30-bed inpatient rehabilitation unit provides post-acute rehabilitation for multiple injuries, including but not limited to: amputation, brain, spinal cord and other traumatic injuries.

- **Joint Replacement**

Operating under the Joint Commission's Gold Seal of Approval for Advanced Certification for Total Hip and Total Knee Replacement, our joint replacement center offers the latest in joint replacement surgery including, RIO® Robotic Arm Interactive Orthopedic Systems and MAKOplasty® robotic-assist.

- **Memory Disorders**

Using a multidisciplinary approach in determining the cause of memory impairment, the memory disorder center offers complete assistance for patients and caregivers, including counseling and education, support groups and safe driver assessments.

- **Neurological Disorders**

The Neurological Institute offers specialized outpatient services geared towards treating memory loss, Alzheimer's disease, sleep disorders, stroke, cerebrovascular diseases including acute stroke therapies, carotid/intracranial stenosis, brain aneurysms and vascular malformations. Neurologists utilize advanced diagnostic imaging to measure brain waves, neuromuscular disorders, nerve disease and nerve damage such as carpal tunnel and neuropathy.

- **Spine Care**

The first spine program in South Florida, and the only one in Broward County, to be awarded the Joint Commission Gold Seal of Approval for best practice in patient care, our program brings together a team of multidisciplinary caregivers to provide both surgical and non-surgical treatment options.

- **Stroke Treatment**

The first in Florida to achieve Joint Commission Certification for Stroke Rehabilitation, the comprehensive stroke center offers specialized care beginning immediately upon arrival to the emergency department by our specially trained multidisciplinary team of caregivers known as the Brain Attack Team.

- **Wound and Hyperbaric Treatment**

Our medical experts provide you with individualized treatment plans that include the most advanced wound care therapies available to radically speed the healing process for wounds caused by diabetes, circulatory problems and other conditions.
